The Chevrolet HHR an initialism for Heritage High Roof [1] is a retro-styled , high-roofed, five-door, five-passenger, front-wheel drive crossover [2] [3] designed by Bryan Nesbitt and launched by the American automaker Chevrolet [4] at the Los Angeles Auto Show [citation needed] as a model. Chevrolet marketed a panel van variant of the HHR beginning in Every HHR came well-equipped with many standard features. Upper trim levels added features such as a multifunction steering wheel, a cruise control system, aluminum-alloy wheels which were also polished on some models , a remote vehicle starter system for vehicles equipped with a four-speed automatic transmission only , a single-pane power moonroof, a leather-wrapped steering wheel, the OnStar in-vehicle telematics system, front side seat-mounted SRS airbags, XM Satellite Radio , a Bluetooth hands-free telephone system Which also included OnStar , and an Antilock Braking System ABS. The HHR had a cargo-carrying capacity of A panel van variant was also made available in for only the LT trim and became available on all trim levels in The rear exterior door handles were removed, though the rear doors could still be opened from the interior of the vehicle. This model was only offered for a single model year , having been discontinued in along with the standard HHR SS Turbocharged model. In early , the HHR was discontinued from the Mexican lineup due to poor sales. In October , Cheryl Catton, director of car marketing and retail integration for Chevy, confirmed that a high performance variant of the HHR would be built. The SS Turbocharged features a 2. In the fourth quarter of , Chevrolet announced that the HHR would be discontinued after the model year, with the last HHR's available in dealerships starting in late January to early February. HHRs were also available for fleet order until May Flex-Fuel E85 was added to the 2. Side curtain airbags became standard for models. However, side torso airbags were never made available. The person I dealt with was very helpful and answered all my questions plus madegood suggestions. Inwould use them again. They said no, come on. I got there the car is a total loss. I would rate this dealership as a Zero! Nice staff just poor customer service. They were very good.. It appears that the above yellow car in this photo is just a stock photo and not the actual car for sale. Since I was looking for a car meeting the description of the above yellow with black stripe , I did not pursue it any further. I feel this may be a bait and switch. I spoke to a salesman and was told to fill out a credit application. I filled out a credit application and dealer never responded. I called three days later and it turned out they never even looked at my application. Then I was told someone would contact me the next day and never heard from anyone again. Adriana has been amazing! Very informative, helpful and friendly! Easy to communicate with as well via text! They answered all my questions, were helpful without being pushy and I think genuinely helpful whatever my decision would be. Questionable quality and knowledge about truck I looked at. I inspected it and I noticed the AC pump was missing and hoses were tied up with wire, they had no idea it was like that. Looked at another truck and that had 3 different types of tires on it and rears were bald. The guy was very quick to answer and had great knowledge about the vehicle that I asked for. Always telling me that the car has just been sold. After I asked for pictures of the inside of the car. And wanted me drive an hour and ahalf. Always take car out of the system if sold. This was a great purchase. Great guys! Honest and responsible. The reading he mentioned and the reflected on the vehicle is different. He posted pictures which are good only and the vehicle smells bad inside. Not impressed Will not recommend to anyone. We're early in the process, but 3 Boys has been very amenable. I visited on Nov. Both the attendance and the manager were accommodating. Since it had been sitting in the lot, the battery was dead, but they charged it and got it started. I didn't have time for a test

drive, but that is coming. The attendant did say 3 Boys is fine with taking the car to a mechanic off-site for inspection. Car was not at all what the dealer claimed. After I drove the car and let the dealer know what problems I had noticed including extreme shaking and side wall tire rot the dealer acted like he knew nothing about. Dealer seemed inconvenienced to even come meet with me. Long trip for nothing. They definitely stand up for thier name. Was in and out very fast. Test drove and bought the van on my lunch break. And the man came down quite a bit. Started negotiating at 10 am. Made an appointment to go to the dealership with the trade in. Half way there , they called and said the car was just sold. Those people suck! They do not have any integrity! Car did not seem same as the pictures. After doing the visuall inspection Bumper looked like it had been an accident. Beware of when buying car from here. Check everything! Didn't end up buying the car, but the dealer was friendly and answered all of my questions in a quick manner. Most endangered of all is the coveted SS trim, cut from the lineup this year after just 2 years of production. Aside from that, only a couple new features were added into a single option pack for this final edition HHR. The LS gets inch wheels with covers, while the LT trims upgrade the rubber to silver-painted inch wheels. The four-bangers available in the HHR are a 2. The 2. However, the fuel economy of the 2. Both engines are a bit underpowered for even an empty HHR, making steep hills a laborious climb if you use all 58 cubic feet of available cargo room with the seats folded down 63 in the LS Panel edition. Although the 2LT does seem to do a bit better with the larger engine, its ride and handling are universally rated as jerky and uninspiring. Drivers also comment on large blind spots and the soft suspension getting bouncy at high speeds. However, the HHR is surprisingly maneuverable and easy to park, and the cabin is blissfully silent. Production is slated to end for the HHR in December, with the Chevrolet Captiva available later in the year as a comparable stop-gap option to fleets only. The first HHR came in LS and LT trims with a one-piece rear liftgate, air conditioning, power windows, power locks, power mirrors, remote keyless entry, split-folding rear seat, and a fold-flat front-passenger seat for hauling long cargo. Standard power came from a 2. Curtain side airbags, OnStar Assistance, and satellite radio were available as options. A more powerful SS trim also joined the lineup with a firmer sport suspension and a turbocharged 2. Unlike previous renditions, the HHR SS was comfortable, powerful, and fun to drive with zero disappointments. More utilitarian and quirky-cool competitors moved to the fore, such as the Honda Element and Fit and the Scion xB. Fuel prices skyrocketed - again. The LS and 1LT now got a 2. Although the Chevy Captiva will fill the gap for fleets, there is no word if the Captiva will ever be available to U. Given its rarity, however, you might end up paying more than the suggested 20 grand due to thick competition, but if you intend to use all 58 cubic feet of cargo room, those horses will be exceptionally useful and well worth the investment. We did a vigorous search via the internet and saw a vehicle at Broadway Auto Mall. It was a sleek, black Nissan Altima. Needless to say, we were eager to go check it out. When we got to the dealership, I noticed another vehicle that I liked also. The salesman came out and we talked for a few minutes and I told him which vehicles I was looking at. He absolutely blew me away with his knowledge and professionalism. He told me a lot about the two vehicles and brought both of them around for me to test drive. I told him that I intend to thoroughly test drive both vehicles and would take about 45 minutes with each one. He said to absolutely take my time. Once I finished testing both vehicles, I made my decision to go with the Nissan Altima. I did noticed the car was very clean inside and out and drove very nice. We went inside and I was introduced to the General Manager and other staff. They were awesome people as well. We talked price and I got the price that I was comfortable with. They even offered to let me take the vehicle home for the night before deciding to buy. Since I knew a lot about vehicles I decided to go ahead and purchase it. The transaction didn't take that long to complete at all. I have had the vehicle for nearly two months now and it still runs like new. After having the vehicle for a while, I decided to write this review. When my other son is ready to drive, I will surely go back to Broadway Auto Mall to see what they have. Take a look at those reviews first, as they're most likely to describe reliability issues with the vehicle. Sign Up. The Chevrolet HHR remains a solid choice for a distinctive-looking hatchback, though newer competitors are superior in some regards. When it came time to develop a small compact wagon, the Chevrolet designers chose to go down the same road as the wildly successful Chrysler PT Cruiser, harnessing retro styling themes to a utilitarian package with a look that captures the spirit of the Chevy Suburban. Since its introduction in , the Chevrolet HHR Heritage High Roof has carved out an effective niche for itself, and now with the passing of the PT Cruiser into history, the Chevrolet HHR has become a more compelling choice for people looking for a small car that's really practical. As before, the strong points of the Chevrolet HHR include its comfortable ride, versatile and roomy interior and impressive fuel economy. But its interior quality and driving dynamics could be better, and it continues to face stiff competition from less expensive hipsters like the Nissan Cube and Scion xB as well as the more refined and athletic Honda Fit and Mazda 3 five-door. The Chevrolet HHR continues to be a respectable choice, particularly if you're fond of its retro styling. Just be aware that there are lower stickers and better-driving cars to be had, depending on your focus. The high-performance HHR has been dropped from the lineup for , and we wonder if the impending replacement of the Chevrolet Cobalt by the Chevrolet Cruze will have an impact on the HHR's future at Chevy. The Chevrolet HHR is available as a traditional four-door, five-passenger hatchback wagon or a two-seat Panel variant. The HHR Panel is meant for business owners with its windowless rear cargo panel doors and rear quarter panels, cargo floor storage compartments and rear amp power point for accessory equipment. The 1LT includes inch alloy wheels, body-color mirrors and a power driver seat. The 2LT adds a larger four-cylinder engine, a sport-tuned suspension, inch alloy wheels, foglights, a leather-wrapped steering wheel with audio controls, Bluetooth and a seven-speaker Pioneer audio system with subwoofer. Chevy's front-wheel-drive HHR gives buyers a choice of two different engines: the standard 2. Both are mated to either a standard five-speed manual transmission or an optional four-speed automatic. With the automatic transmission, EPA estimated fuel economy for both the 2. Opting for the manual results in only a slight increase in fuel economy. Standard Chevrolet HHR safety equipment includes antilock brakes, stability and traction control, OnStar telematics and side curtain airbags. In government testing, the HHR earned a perfect five-star rating for both front- and side-impact crash protection. Even the more sporting HHR 2LT actually feels fairly soft around the edges, tuned for a quiet, cushioned ride rather than a fast pace in the corners. This is a kind of a wagon, after all, meant for carrying rather than driving. Both of these inline-4 engines feel coarse when revved hard, a condition that's hard to avoid when accelerating quickly. With that in mind, we prefer the HHR's more energetic 2. The Chevrolet HHR also earns praise for its attractive, roomy passenger cabin. The standard cloth seats are comfortable enough; the more supportive optional leather-trimmed seating is even more inviting. The layout of controls is simple and straightforward, with good outward visibility on wagon models. However, we recommend the optional rearview camera system for extra assistance on Panel vans due to their non-existent sight lines out back. Folding down the wagon's front passenger seat and split-rear seatbacks creates a useful flat load floor and 58 cubic feet of cargo space 63 cubic feet for the Panel van. The only real criticism we have of the HHR's cabin is the relatively cheap look and feel of some of the materials used. After working at GM for 30 years and seeing a lot of different designs this one has been an eye catcher from the start. There are several areas that cold have made this little ride even better. Number two problem is plastic inside door handles. This car purchase occurred when my beloved Volvo wagon got totaled. My wife drove a Cavalier that she, apparently, loved. I hated that thing -- it was low to the ground, had awful safety ratings, terrible reliability. She was carting around the kids and her mother on shopping trips almost daily in a cramped compact. I gave her the Pacifica because of the AWD Northeast winters , the extreme level of comfort you can achieve with proper frequent maintenance, better safety rating and I took the Cavalier. I couldn't stand it and drove it to a dealership 2 months later. I bought a HHR in There is nothing cool about this car if you're under There is no resale value to this car. Halfway decent pick-up. You can put in a standard walk-behind lawnmower relatively easily with room for a child's car seat. Plus, I know that the outdoor temp is usually wrong. I take it with a grain of salt. Plus, this is an 1LT edition I think I got one power seat out of the deal. Own a 2LT version. It does everything I wanted it to. I'd only change a few things: 1. CD's keep sticking inside the player necessitating playing games to get them unstuck. The housing removal is a major pain when you want to change out filters. Don't let the funky retro styling fool you, this is a very practical vehicle.
